

TECHNOLOGY OF EVOLUTION

Cavalier Series

Introduction

The "Cavalier" is CoolerMaster's brand new state-of-the-art chassis series. Breaking away from traditional flat case design, it combines smooth, flowing lines, and curves with a unique sound pressure device. When music is playing, the analog dial "dance" to the music, helping to add that little extra pizzazz to your life. With its stylish design, the Cavalier lets you create your own personal style.

Features

- **Curvier Design**

A breakthrough from regular flat-panel design, with elegant aluminum curvier design, Cavalier will become the aesthetic focal point of your living space, be it in your work room or living room. Having good taste for living styles as you are, the stylish Cavalier will definitely become one of your prized possessions.

- **Unique Classical Design Sound Pressure Device**

Cavalier is designed with a unique sound pressure device in a classical style. Its eye-dazzling sapphire light and the left-right swinging sound-pressure meter hand will bring tremendous fun into your life.

- **300W Power Supplier**

Cavalier is equipped with a 300W ultra silent power supplier. In addition, Cavalier also comes with two Serial ATA ports for new-generation hard disk transmission interface. The up-to-date extras will satisfy your needs for years to come.

Designed for Life
